

LARGE

Audience In Attendance At
Hiawatha Assembly

To Hear Concert By The
Ziegler-Howe Company

Two Excellent Programs
Given On Tuesday

The National Chautauqua
Band Here Today

Some Notes Concerning The
Assembly At The Park

There was a larger attendance at Tuesday night's entertainment at Hiawatha Lake assembly than on the opening evening, and it is predicted that the patronage will grow daily and nightly as the people come to realize that the 1910 program is far better than any that has been offered here for some years.

The special attraction for Tuesday afternoon and evening was the Ziegler-Howe Concert Co., and the programs rendered were most pleasing in every detail. The programs were varied and yet nicely balanced throughout, and the applause that followed each number indicated that the people were mighty well pleased.

The National Chautauqua band played this afternoon and will remain here as special attraction for Thursday afternoon and evening.

On Tuesday evening the Cleveland crowd got together in the auditorium and made things lively before the concert by singing a number of Hiawatha songs, set to tunes familiar to all. One of the tunes used was that of the favorite, "The Glory Song." Then, with a wave of his hand, the leader brought the audience to its feet and all joined in singing two stanzas of "America."

ASSEMBLY NOTES

The National Chautauqua band arrived Wednesday morning.

Supt. Rose stated Wednesday morning that the plan of reserving seats is not being carried out this year. All seats in the auditorium are free.

The register is open in headquarters tent and more than 200 persons registered up to Tuesday evening.

There was a heavy rain at the park Wednesday morning and some water went through the headquarters tent. None of the tents suffered any inconvenience, however. In fact, all were glad that it did rain, as the park grounds were getting dusty and needed the refreshing downpour.

The rear gate at the park, located in the southwest corner is open this year and teams may be driven in at that point. This is a decided advantage to persons living northwest of town, as it gives them a "short cut" to the park.

It has been found necessary to make one change in the program of evening events. Prof. Woodland's scientific lecture and demonstrations will be the attraction for Friday evening instead of Master Byron Mitchell, the singer. The little fellow will be the attraction on closing night, August 4.

Wednesday's telegrams noted the fact that Senator Norris Brown, who comes to Hiawatha Saturday is one of the big men in Nebraska. He won the

state chairmanship in the Republican convention after an exciting contest. Brown is sure to be one of the big statesmen from the West the coming year.

ROWLANDS

Give All Employees Vacation
With Full Pay

Rowlands & Co. have a custom of giving to each employee a week of vacation with pay, which is a happy innovation to the many clerks in their several stores in Ohio and Indiana. Here in Zanesville the employees are taking turns with their off weeks and enjoying the liberality of their employing firm. Manager Charles Rowlands states that he believes this policy to be the best from every standpoint, as it gives the people who work for the interests of the firm an added interest in the business, and that in the end the house gets better service from their employees.—Zanesville Times Recorder.

CONFERENCE

Of M. P. Church To Be Held
In Zanesville

(Zanesville Times Recorder)

The most important religious event of the season is the Muskingum Conference of the Methodist Protestant church, which will be held at the Conference Memorial church, West Main street, from September 1 to the 5th inclusive. Dr. C. H. Beck of West Lafayette is the conference president and will preside at all its sessions. It was through the instrumentality of this conference that Zanesville was so fortunate as to secure so fine a church edifice for the Methodist Protestant congregation, as the ministers themselves pledged more than \$20,000 of its cost with the provision that the conference should have the privilege of holding all its sessions there.

The Rev. D. C. Coburn, pastor in charge, looked after the local financial end and did it so thoroughly that the church was built without undue sacrifice upon the part of any one. The conference sessions are attended by members of other denominations, who enjoy the rare treat afforded in the lectures and sermons.

Every indication now is that there will be a large group from this place and that there will be a jolly good time for all who attend. Any boy in the community between the ages of 12 and 18, is eligible to attend the camp.

FRAUD

Charges Are Filed Against
A. J. Solomon

Coshocton, O., July 27.—Fraud is charged against A. J. Solomon of Mt. Vernon, owner of private banks which closed recently at Marshallville and Walhonding, in an answer and cross-petition filed last night in the Coshocton county courts by the receivers for the Walhonding bank. The papers were filed in a suit begun by Solomon for dissolution of partnership with Frank Bloch of Mt. Vernon and the Butler Manufacturing Co. of Butler, Ohio.

The receivers allege that the Walhonding bank, with liabilities of about \$25,000, has no assets except the bank building. They say that Solomon committed fraud in having the deeds to this property put in his name. They also say that the Butler Manufacturing Co. put in a claim for \$6,500 against the bank for fixtures, etc., which were worth only about \$1,000.

AUTOS

Make Good Time On Run To
Toledo

Toledo, O., July 27.—Cleveland contestants in the three-day reliability run of the Cleveland Automobile Club and the Cleveland News, which started from Cleveland Monday morning, had a comparatively easy time of it today. With few grades, no sand and many miles of macadam and pike, the tourists arrived at this control without difficulty. No final scores will be announced until the tourists arrive at Cleveland. The vanguard of the tour will reach the Hollenden Hotel at about 5:30 o'clock.

Despite the easy going there is much dissatisfaction owing to the statement published in Columbus this morning that although supposed to be under guard, the tourists drove their cars about town in the evening. This every tourist denies. Willis Stutson of the White Company, Cleveland, who represents the American Automobile Association on the run, will take up the matter officially upon his return home.

The only car known to be on the streets last night was the Chalmers official car, which is not a contestant, and it, with the Oldsmobile Mudlark and other non-contestants have a right to the streets after checking time.

NOT THIS YEAR

Will Work Be Commenced On The
Interurban

It is probable that the work of the construction of the extension of the present Columbus, Albany and Johnstown Traction Company by the Columbus, Mt. Vernon and Mansfield Traction Company, which has taken over the former road, will not be started until next spring, although it has been the hope of the men should the new company that work would be started on the extension this year.

However, as in all matters of this kind, unexpected delays are encountered and while the new company has the financing for the extension practically arranged for it will take some time to complete maps, let contracts and do other preliminary matters in connection with the new road. It will rebuild to Johnstown, thence to Mt. Vernon and then to Mansfield, where it will connect with the lines of the Cleveland, Southwestern and Columbus, thus giving a direct electric route between Columbus and Cleveland.—Columbus Journal.

LATEST TYPE OF BASEBALL

(Popular Mechanics)

From 1883 until last year very little, outside of minor changes, was done in developing the baseball. The league baseball used in this period had a rubber center, and the yarn wound around it was coated with a continuous layer of rubber cement. The ball now used includes a means of preventing the inner yarn from slipping away from the center of the ball, and the substitution of cork for rubber in the core. This core of cork is covered with a layer of rubber vulcanized to a certain degree of hardness, and on this is wound the usual yarn.

The cork makes possible a more rigid structure and more uniform resiliency. It is said to outlast the rubber center balls many times over, because it will not soften or break in spots under the most severe usage.
